Stain Proof – No Exceptions™

Perfecting the balance between dye technology and understanding a fiber's construction, our carpets feature a Stain Proof – No Exceptions™ warranty. Most spills can be easily removed through gentle blotting allowing your carpet to remain beautiful in spite of life's little mishaps.

Backing Performance

Barrett carpet tiles are manufactured to provide dimensional stability and will not delaminate from face fiber or edge ravel. Our Backing Performance warranty guarantees that the backing on this product will not shrink, grow, cup or dome, which ensures easy installation and product longevity.

Wear

Our carpet is guaranteed to withstand the wear and tear of daily life. Built to perform, Barrett carpet offers strength from face fiber to secondary backing.

Modular

Carpet tile has great flexibility in design by mixing colours and patterns you can create your own unique look. Tile is easy to handle and can be installed in stages minimizing renovation downtime. Maintenance or repairs are simple, if a spill occurs the affected tile can be removed and cleaned or simply replaced if damaged, rather than replacing the entire floor.

The natural characteristics of geometric or linear patterns in carpet tile can result in double-dark or double-light lines at the seam and to some degree a pattern run-off or bias. This is not a manufacturing defect. These characteristics should always be taken into consideration when choosing the installation method of a modular carpet. While select styles are offered in both modular and broadloom formats, they are not an exact match since the equipment used in the manufacturing of both patterns are entirely different. *Percentages of recycled content are accurate at date of printing. The availability of these inputs may fluctuate. Refer to barrettcarpets.com for the most current specifications.
